

# AMPHIBIAN QUESTIONS

Name: \_\_\_\_\_

## General Questions to Consider:

- What adaptations do amphibians use to adapt to living on land and water?
- How does an amphibian breathe?
- Describe the amphibian's response to temperature change.
- What was the longest frog jump in history?

Jot Notes:

Choose ONE amphibian and answer the following questions:

1. What is the scientific name of your amphibian?
2. What is the average life span of your amphibian? ( in the wild and/or in captivity)
3. Where in the world is the animal *indigenous*?

4. What temperature range is needed for the amphibian's survival?
5. What is the animal's predator? What is its prey?
6. What size area is appropriate for such an animal's survival?
7. How many members of this species can co-exist in this given space?
