

FISH QUESTIONS

Name: _____

General Questions to Consider:

- Where in the world are fish found?
- Are there laws about what, where and when you can fish?
- How many species of fish are found in oceans? rivers or streams? lakes?

Jot Notes:

Choose ONE fish and answer the following questions:

1. What is the scientific name of your amphibian?
2. What is its natural habitat?
3. What is its average life span?

4. What are the parts of your fish?

5. How has the fish adapted to its environment?

6. What temperature range of the water is needed for the fish to survive?

7. How many members of this species can co-exist in this given space?

8. What other life would you add to the environment to ensure the survival of your fish?
