

REPTILE QUESTIONS

Name: _____

General Questions to Consider:

- Describe how reptiles maintain their body temperature.
- Describe one other structural characteristic particular to reptiles.
- Describe how reptiles produce offspring.

Jot Notes:

Choose ONE reptile and answer the following questions:

1. What is the scientific name of your reptile?
2. What is the average life span of your reptile? (in its natural habitat and/or in captivity)
3. Where in the world is this reptile *indigenous*?

4. What temperature range is needed for the reptile's survival?
5. What is the reptile's predator? What is its prey?
6. What size area is appropriate for such reptile's survival?
7. How many members of this species can co-exist in this given space?
